This book's index can be found at the last page.

This book includes illustrations some readers may find disturbing or inappropriate. A few illustrations contain sparse, non-sexual depictions of partial nudity or sexual symbolism, religious symbolism from several mythologies and religions, and references to death, and real-world hate groups.

Exercise caution if these subjects are uncomfortable to you.

Welcome to the Sea of Souls! This document compiles the first 2024 batch of official add-ons released for the [Grimoire of Heart](#) starting from the 4.13 update.

This content was written and balanced to be on-par with the core Grimoire content, but can be more mechanically advanced than core content. Make sure your Narrator allows Sea of Souls content before using it.

If you somehow have this document and not the core Grimoire release, you can [download it here](#).

As always, a big thank-you to everyone in [our Discord server](#) for contributing concepts and feedback for the Sea of Souls!

Class Variant – Wild Q (Wildcards)

*“As I thought, you sense something as well...
I look forward to the story that the strands of fate will weave.”*

The Wildcard’s potential is often described as the “Power of Zero”, an emptiness that enables its wielder infinite possibilities, as long as this power is honed responsibly. Wildcards thrive forging strong bonds and sharing their lives with others, which in some rare cases can trigger a peculiar phenomenon: A Wildcard’s power, particularly in times of cognitive instability, can “bleed into” others, granting a part of their power and a unique set of skills to all involved.

Mechanically, Wild Qs are considered Wildcards, but with the following Class Features instead of the Wildcards’:

- ❖ **Maze of Life:** Much like the original Wildcard Users, Wild Qs can obtain Personae by negotiating with Shadows. Standard negotiation rules apply, and Wild Qs are subject to the same stock limitations as Wildcards (by default, eight Personae including their Starter);
- ❖ **Light the Fire:** Wild Qs cannot switch active Personae, being limited to using their Starter. However, the vestigial power of the Wildcard allows them to equip a “Sub-Persona” by drawing upon part of the powers of the new Personae to bolster their Starter. As a **default** action, or once per Scene, a Wild Q can equip any Persona in their stock, except their Starter, as a Sub-Persona. When you do, you can access the Sub-Persona’s Natural Skill, and one of the following benefits (chosen whenever you switch to a different Sub-Persona):
 - Choose up to four spells from your Sub-Persona. Those spells are considered to be part of your Starter Persona’s deck as long as that Sub-Persona is equipped to you. This can be done even if those spells would exceed your Persona’s limit of 16 spells. Chosen spells must obey normal spell deck limitations, such as no repeated Unique Category spells;
 - Choose up to three Affinities from your Sub-Persona, except Neutral Affinities, and overwrite your Starter Persona’s Affinities with the chosen. This is not a Buff effect and remains active as long as that Sub-Persona remains equipped.
 - Note that switching Sub-Personae in combat is always considered a **Default** action, ignoring the effects of “*The Other Cheek*” and similar effects.
- ❖ **Longing and Instinct:** The Wild Q’s unique way of manifesting Personae grants them a subtle advantage in negotiating with Shadows. During negotiation, if either your Starter Personae’s or your Sub-Persona’s Arcana match the negotiation target’s Arcana, you gain a +1 Social Skill bonus for that negotiation
- ❖ **Invitation to Freedom:** Being blessed with a similar power to that of the Wildcard, Wild Qs can access the Velvet Room’s full suite of rituals: Fusion, Sacrifice and Seclusion, under the same rules as other classes with access to these rituals.

Spells

Name	Categories	Reach	Effect	Description
Foul Legacy [Tier II] 	Debuff, Raku (A)	One target within 8 meters	Spend 1 Energy and the use of one Element spell in your deck, then apply the following Debuff effect based on the Tier and Type of spent spell: T1: Fortify <Element> -6 T2: Fortify <Element> -12 T3: Fortify <Element> -18 T5: Fortify <Element> -36	Your Persona burns or otherwise destroys a card that represents your chosen spell, and fires a wave of translucent energy that envelops the enemy.
Universal Diagnosis [Tier II] 	Status, Affinity (H)	One target within 6 meters	The target's Status Affinity becomes equal to your Status Affinity when you cast this spell. This is a Condition . During subsequent turns while this effect is active, as a Quick action, you can spend 1 Energy to extend this effect until the end of your next turn, or spend 2 Energy to extend this effect until the end of your next turn and grant your original target Status Affinity +1 or -1 (your choice).	You fire a strand of energy that wraps around your wrists and the target, palpitating with energy.
Grim Heart [Tier III] 	Death, Dark (A)	Caster	When you cast this spell, you gain the "Grim" Condition until the end of your next turn. While under this Condition, each time you slay at least one target during your turn, increase the duration of Grim on you by one round. As a default action, you can choose to remove Grim from yourself. When Grim is removed by any means, choose one target you can see as a Quick action: On hit, that target takes MAGdX Dark damage. The damage dice for this spell depends on the number of turns spent consecutively under Grim: 1: d4 ; 2: d6 ; 3: d8 ; 4 or more: d10	A sinister shade floats around you, growing in size and ferocity with each moment.
Cosmic Art – Hyouka [Tier III] 	Area, Move, Nuclear, Cosmic (A)	One Nebula Cloud you created	Decrease the area of your Nebula Cloud in 1m (You cannot declare this action if this would decrease the area of effect to less than 1m), then: Extend the effect of Nebula Cloud to until the end of your next turn. Shadows inside the area of effect cannot move or be moved outside the area of effect. Shadows that would be moved outside of the area of effect when its range is decreased are automatically moved to the closed unoccupied space within the area, if possible. Shadows within the area of effect take 2MAG Nuclear damage, no check.	Your cloud glows intensely and collapses into itself, burning and dragging enemies along itself.

<p>Dawn [Tier III]</p> 	<p>Line, Fire (A)</p> <hr/> <p>Time: Default</p>	<p>Any number of targets between you and a point within 5m</p> <hr/> <p>Duration: Instant</p>	<p>On hit: SKLd8 Fire damage, and apply the following Condition on yourself for X turns, where X is the number of targets that took damage from this spell:</p> <p><i>Upon casting a spell that deals Physical or Gun damage, or upon declaring a basic attack, you change that damage to Fire.</i></p>	<p>You conjure the specter of a legendary bird wreathed in flame that flies through the arena towards you, covering your Persona and weapons in bright flames.</p>
<p>Isomer 75 Type-2 [Tier III]</p> 	<p>Repress, Interrupt, Heal (A)</p> <hr/> <p>Time: Default</p>	<p>Caster</p> <hr/> <p>Duration: 2 rounds</p>	<p>Repress one use of a spell in your deck. When an ally casts a spell of the same Type as the Repressed spell, or when a Shadow deals damage of the same Type as the Repressed spell, you can cast one Heal spell from your deck as an Interrupt action. Once per round, when you trigger this effect, you can Repress the cast spell: Casting it does not spend your Interrupt action for this round.</p>	<p>You conjure a small mechanical construct visually based on the Type of spell chosen, that can produce supporting magic automatically.</p>
<p>Icy Fangs [Tier V]</p> 	<p>Mono, Combo, Ice, Unique (H)</p> <hr/> <p>Time: Default</p>	<p>Caster</p> <hr/> <p>Duration: Held</p>	<p>When you cast this spell, you gain a number of Icy Counters equal to the number of Shadows within 4 meters. While this spell's effect is active, you cannot declare movement actions.</p> <p>You can spend one Icy Counter to declare the following attack as a Free action:</p> <p>1 target within 4 meters. On hit: SKLd6 Ice damage. Unspent Icy Counters disappear at the end of your turn.</p> <p>During your next turn after casting this spell, you can spend 3 Energy as a Default action to activate this spell's effect again as if you'd cast it.</p>	<p>You adopt a firm and aggressive combat stance, with your Persona behind you, mirroring your movements and creating blasts of cold air around you.</p>
<p>Cherry Blossom Sovereign [Tier V]</p> 	<p>Thunder (A)</p> <hr/> <p>Time: Default</p>	<p>1 unoccupied space within TEC meters</p> <hr/> <p>Duration: 3 rounds</p>	<p>Create one <i>Cherry Blossom Retainer</i> on the chosen space. Cherry Blossom Retainers are immobile cognitive constructs that cannot be targeted by attacks or effects. Shadows cannot move through Cherry Blossom Retainers.</p> <p>At the start of each round, select one target you can see, for no action cost, and declare the following attack:</p> <p>On hit: This spell's damage is based on the number of Cherry Blossom Retainers you control.</p> <p>1: MAGd6 Thunder damage. 2: MAGd8 Thunder damage. 3 or more: MAGd10 Thunder damage.</p> <p>If the target is Shocked, you can roll for a Critical Hit against that target without spending Luck Charges.</p>	<p>You summon a spectral fox statue, or another creature based on your Persona's mythos, that tracks your enemies with its gaze and strikes with merciless thunderbolts.</p>

Theurgy Spells

“Spiritual magic that could reach the gods.”

First discovered during the Tatsumi Port Island incidents, Theurgy channels a Persona User’s emotions, usually through a special device, into a spell that’s finely-tuned to each person’s personality and fighting styles. In theory, although only the members of SEES are known to wield Theurgy, any User class could be able to learn this technique with the proper equipment and training.

Mechanically, Theurgy is considered a normal spell that has its damage, targeting, effects and Categories chosen when it’s first acquired. Theurgy spells can only be learned by Starter Personae and are always considered Tier V, thus costing 5 SP to learn and granting 2.5 SP when forgotten. Additionally, all Theurgy spells have the **Unique (A)** Categories, and are always considered Time: Default and Duration: Instant spells.

Each User can only have one Theurgy spell in their decks. Theurgy spells cannot be cast immediately, as their *Trigger* must be fulfilled first. After fulfilling your Trigger, a Theurgy can be cast at any point during that combat. After you cast your Theurgy, your Trigger must be fulfilled again. It’s recommended that Theurgy spells are created during session downtime or between play sessions as to not disrupt the flow of gameplay. Choose one option from each row of the table below and add it to your Theurgy’s description. Feel free to come up with a unique name and visual description for your Theurgy, although this is not obligatory.

Theurgy	Options

Skill Capsules

A breakthrough created by Blankenheim Pharmaceuticals, Skill Capsules are a type of supplement that grants the user a temporary boost in their abilities, such as improving one's capacity to learn and retain information, sharpen one's reflexes, among others. Visually, Skill Capsules are soft-shell medicine capsules full of a light and swirling liquid that comes in practically any color one could think of.

This development, however exciting, is little more than a front for the real purpose of Skill Capsules, meant only for Persona Users: The ability to condense part of a Persona's cognitive essence into material form. Skill Capsules are **Consumable Items** that override a User's Natural Skill, or NS, with the Skill contained within them. Upon consuming a Skill Capsule, their Starter Persona's Natural Skill is removed, its effects (if active) are nullified, and the Capsule Skill immediately takes its place. Uninvited Users must choose which of their Starters receives the new Capsule Skill whenever one is consumed. This effect lasts for 48 hours, eight Time blocks, or until the User chooses to "forget" the Capsule Skill, treated as a Quick action, removing its effect immediately and restoring their original NS. At any point outside of combat and before the effect expires, the User may choose to "internalize" the Capsule Skill, **permanently** replacing their previous NS with their current Capsule Skill. This cannot be undone and Internalized Capsule Skills cannot be forgotten the way a temporary Skill can.

Condensing and Purchasing Skill Capsules

User Classes who are able to obtain Personae through negotiation can choose to sacrifice extra Personae to obtain Skill Capsules. To do this, choose a Persona that is not originally a Tyrant, Element, Icon, or Ultimate Persona, and spend one Sub-block at a designated Blankenheim Therapy Facility. The Therapy Facility is a narrative detail that can be changed or expanded upon to better suit each table's setting and tone. Condensing a Persona into a Capsule permanently removes it from your stock and results in one free Skill Capsule of that Persona's NS, and the ability to purchase extra copies of that Capsule in the future.

The "Tier" under the Condensed Capsule's Price is equal to the RP reward (Core, Page 163), based on the Persona's listed Level in the Bestiary. A Condensed Capsule's name and effect are always the original name and effect of the Condensed Natural Skill. Condensed Capsules extracted from Rumor Personae maintain the ability of Rumor Skills to be used by other Users. The next page contains some examples of "default" Skill Capsules and the NS they provide.

Name	Effect	Cost	Rarity
Condensed Capsule	A Capsule created by condensing a Persona's essence into a tangible, digestible form. It carries the condensed Persona's Natural Skill.	2(Tier) RP	1
Musashi's Edge	As long as you have a sword equipped, when you dodge a spell or attack, you can declare a basic attack as your Interrupt action.	3 RP	1
Aubigny's Grace	Critical hits dealt by Polearms weapons you have equipped deal 50% extra damage (applied last in damage calculation)	4 RP	1
Sting Like Ali	As a free action, you can spend 1 Aspect Point to grant the bonuses on a Glove weapon equipped to you to an ally within this weapon's range until the end of their turn. This also grants them the DR benefits of <i>Glove Mastery</i> if you have it.	3 RP	1
Belmont's Legacy	Targets that take damage from a Whip weapon you have equipped, or are targeted by a spell cast through a Whip's Cast effect, immediately suffer Status Affinity -1 (Min. Weak) until the end of your turn. This applies before the Panicked roll for Whip Mastery.	3 RP	1
Pink Argus, Take Flight	Basic attacks you declare while you have a Bow equipped treat the target's Damage Type Affinity as -1 (Min. Weak) during damage calculation. You can subtract or add 1 to your <i>Bow Mastery</i> roll for no cost.	4 RP	1
Terminator Determination	When you activate the effect of <i>Firearm Mastery</i> , apply the following Condition to the same target: <i>Decrease this unit's HDC and DDC by 1 for all attacks declared by and against the User who applied this Condition.</i> This Condition lasts It lasts until the end of your next turn	2.5 RP	1
Infallible Phalanx	Declaring a basic attack with a Shield weapon outside of your turn restores 10% of your maximum HP to yourself, even if the attack misses or does not deal damage.	3 RP	1
Dance of Daggers	Attacks declared with Daggers treat any interaction higher than Resist as Null. This weapon deals Physical damage if the target's Physical Affinity is lower than its Gun Affinity, and deals Gun damage if the target's Gun Affinity is lower than its Physical Affinity. If the interactions are the same, you may choose which Damage Type to deal. If your Dagger deals non-Physical damage, you can choose to ignore this Skill's effect to deal that damage instead.	3 RP	1
Reader's Helper	When you take damage outside of your turn, you can use your Interrupt action to declare a basic attack: This attack deals (SKL/2) * X damage , where X is equal to the combined price of all Grimoire pieces currently equipped, of the damage type indicated by your equipped Chapter. Once per combat, this does not spend your Interrupt action for that turn.	4 RP	1

Knee-Deep in the Dead (P): Whenever Corpses reaches 75%, 50% and 25% of its maximum HP, it casts Grotesque Merge as its Interrupt action.

Legion (P): As long as there's a User adjacent to Corpses, it can declare an extra attack this turn (to a maximum of four attacks, counting the extra attacks from the Shadow Horde features). Additionally, any damage Corpses takes that's not damage it's Weak against or from a Critical hit can be reduced by 50%, for no action cost, and Corpses can choose one adjacent target to deal that same amount of damage, of the same Type.

Grotesque Merge: Can only be cast through the effect of Knee-Deep in the Dead. All Users in combat. HDC +1. On hit: 3STR (12) Physical damage and Corpses chooses one target that took damage from this spell. That target is moved to a position adjacent to Corpses, and suffers the following Condition: Cannot move or be moved to a position that's not adjacent to Corpses. If Corpses takes damage it's Weak against, or suffers a Critical hit, remove this Condition.

Shamble: Any number of targets between Corpses and a space within 6 meters. On hit: 4d10 PSY damage and Corpses is moved to the selected space.

Death Touch (Physical): One target within 3 meters. Use the target's VIT instead of AGI to roll dodge for this attack. On hit: x Physical damage. If this damage reduces the target's HP to less than 30%, the target enters Death's Door. This is a Death Category effect.

Snap Shut (P): *Bound* is a Condition applied by Padlock, visually represented by a heavy and painful padlock piercing through the User's body. Bound targets cannot move or be moved by any means. Attacks and spells declared by Bound targets have -2 HDC. The first time a User is Bound, the party may roll an Expression (2) check, Risking allowed, to reveal the following insight about the Bound Condition: The padlock placed on the User can be targeted for attacks. It has 40 HP, cannot dodge and has no Type Affinities. If an attack lowers the padlock's HP to zero, the Bound Condition is removed and that User becomes immune to this Condition until the end of combat.

Tear Off: One Bound target. On hit: Remove Bound from the target, and lower their current HP to 1. This is considered Almighty damage.

Clamp Down (Intel): Up to three Users within 7 meters. 40% chance to apply Bound. Targets who do not suffer Bound instead suffer Intel Affinity -1 for 3 rounds. This is a Debuff effect.

Fire Slash: 1 target within 8 meters. On hit: 4d8 (18) Fire damage.
